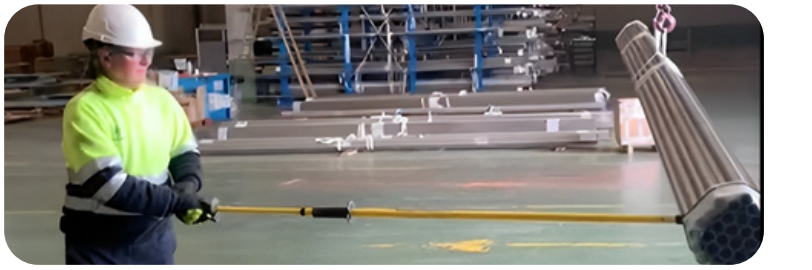
DATA SHEET

KNOT STICK

Designed to facilitate the handling of circular or cylindrical loads such as pipes, poles and shackles. The knot Stick is ideal for situations where there are no anchor points available or when the parts are made of non-magnetic materials such as stainless steel and manganese. Made of steel rope, with numerous wires to offer flexibility and resistance to deformation, the Loop is coated to protect both its structure and the surface of the load. It is easily adjusted by opening or closing the pole, allowing the rope to be adjusted as necessary to wrap the load securely.

Use the "Vertical Grip" Accessory (code: 1.31.0271)



Rubberized grip handle - anatomical and non-slip

Lace Fitting

Diameter Adjustment
