SECUNORM MIZAR

NO. 125001

Original size

Ergonomically shaped

Right-handed? Left-handed? It makes no difference with the SECUNORM MIZAR. Its ergonomically designed, lockable squeeze grip comfortably fits all hands. Making cutting super easy. Regardless of the number of cuts you make per day.

Plastic with a content

A glass fibre content, to be precise. These fibres are what make the SECUNORM MIZAR super strong and super solid. The durability of this cutter is remarkable.

Easy blade change

No tools are needed to change the blade. Two hands can do the job. Move the 3-in-1 activator to position „blade change“. Swing out the lever, flip the blade cover, replace the blade. Close the cover, store the lever, continue cutting!

Multipurpose locking function

The SECUNORM MIZAR 3-in-1 activator is unique. Slide it to lock and unlock your cutting tool. And when necessary, move it to position 3 to safely change or rotate the blade.

Double-sided blade

Before you need to change the quality blade, you have the chance to turn it over once. Usage time of the blade is doubled and fatigue is held at bay: with a simple flip of the blade, your product will cut like new.

More leverage, more performance.

The slimline SECUNORM MIZAR is your gateway into our world of quality squeeze cutters. Instead of a slider, a lever is responsible for releasing the blade. Squeeze and cut. Thanks to a relatively large cutting depth, you can use this cutter to cut all common cutting materials. Efficiently. Its slender, no-fuss form, simultaneously allows a wide variety of cutting styles.

Application

Safety technology

Automatic blade retraction – a high degree of safety

The SECUNORM MIZAR is equipped with automatic blade retraction: as soon as you release the lever, the blade disappears into the handle – and it stays there too. This provides a high degree of safety from cut injuries.

PRODUCT FEATURES

Technical features

High safety

Tool-less blade change
