SECUPRO MERAK
NO. 124001

Ergonomic form
Whether with the right hand or the left hand: you will use the SECUPRO MERAK gladly and effectively. The cutter is shaped with ergonomics in mind, and the force required to activate and release the lever is appropriately minimal, even at high cutting frequencies.

4-times usable blade
One blade, four sharp edges. You clearly get more out of your blade; four times more in fact. Rotating the blade allows you to cut with a constant cutting force, all the way through your work day.

Safe blade change
You can change your blade without any additional tools, and without dismantling the SECUPRO MERAK. You have nothing to lose: an integrated magnet prevents the blade from falling out.

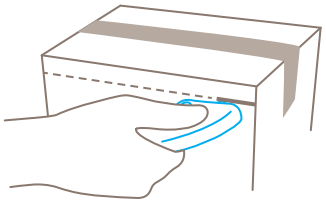
Light and stable
A particularly abrasion resistant plastic has been used for the SECUPRO MERAK. Nevertheless, it has a comfortable weight. Your cutting arm is protected from fatigue, and your cutter from wear and tear.

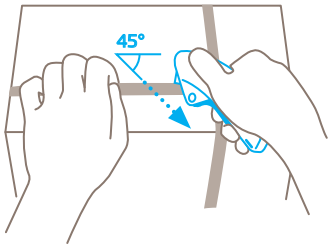
Press for safety
You can prevent unintentional blade activity by activating the small blue blade lock. Simply press against the pictured lock to protect yourself from injury whenever your cutter is stationary.

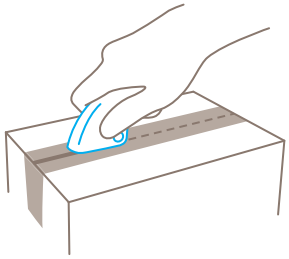
Safety, comfort? Everything under (lockable) control!

The SECUPRO MERAK is our practical, lockable cutter with fully automatic blade retraction. With SECUPRO MARTEGO's "little brother" we have thought about one thing in particular: you. The lightweight and user friendly SECUPRO MERAK lets you work safely, with little risk of cutting exhaustion. And there's much more: thanks to a shallow cutting depth, your goods are also well protected. No matter what material you cut.

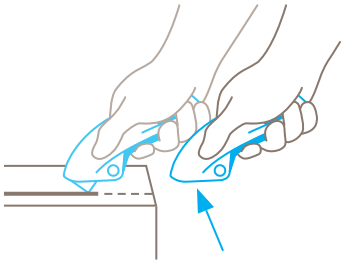
Application







Safety technology



Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO MERAK guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle immediately after leaving the material being cut. Even when the lever is still being squeezed.

PRODUCT FEATURES

Technical features

- Very high safety
- Safer blade change (with magnet)
- Tool-less blade change
- Abrasion resistant
- Very ergonomic
- Safety lock
- 4-times usable blade
- Extended blade length
- Cutting depth
- For right and left hander
