

TECHNICAL SHEET

PUNCH HOLDER

The Agmov family of life-saving sticks was developed to prevent operators from exposing their hands at the point of impact. The Punch Holder model has a permanent neodymium magnet that keeps the punch (or any other piece of carbon steel or iron) positioned for the moment of impact.

TECHNICAL SHEET

PUNCH HOLDER

COMPOSITION

- Made of polypropylene;
- Permanent neodymium magnet;
- Rubberized finish. 5/8" diameter hole.
