

DATA SHEET

STICK U ARTICULATED SMART

The Smart Articulated U Stick is designed for situations where fine adjustment is crucial. Its **design includes two support points at the ends, allowing it to be attached to the load and directed in all necessary directions.**

Its body has quick-release pins that allow the opening and width of the pole to be adjusted. It is ideal for maintenance activities such as fitting flanges to studs, directing workpieces in lathe chucks and handling circular or cylindrical parts.

Rubberized handle - anatomical and non-slip

LENGTH ADJUSTMENT

GUIDIND STICK - U ARTICULATED SMART COMPOSITION

- Fabricado com alumínio Alloy
- Manopla de borracha em PVC
