STRONG
CONNECTION

3/4-5 ACME
THREAD

SAFE CUTTING AT DISTANCE. THANKS TO NEW CONNECTOR OPTIONS.

Materials requiring cutting can often be too high or too far away, making it difficult to reach them. The new CONNECTOR from MARTOR helps you to overcome distances when cutting.

EXTENDING REACH

The CONNECTOR can be attached to a (telescopic) pole with a 3/4-5 ACME thread. This gives you extra long reach to enable safe and efficient cutting.

PERFECT COMBINATION

Our versatile SECUMAX 350, 350 SE, 150 and 148 safety knives are particularly easy to combine with the new CONNECTOR and provide a very strong connection. You not only extend your cutting tool's reach, but also its range of uses.

TECHNICAL FEATURES

An adjusting screw provides flexibility to change the angle of the CONNECTOR angle. Various settings are available.

After form-fitting one end to the knife, attach the other end to a pole such as MARTOR'S TELESCOPIC POLE (not included) that has a 3/4-5 ACME thread (length: at least 40 mm).
