

TECHNICAL DATA SHEET

SECUMAX 148 NO. 148001

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX 148 blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.

DISPOSABLE SAFETY KNIFE WITH CONCEALED BLADE AND ROBUST BLADE HEAD.

Order No. 148001.12

Feeling good – in every aspect.

Safety knives that are both disposable and sustainable? Of course! The SECUMAX 148 is made with more than 80% recycled plastic. The glass fibre reinforcement and the robust, 2-cutting edge blade head ensure longer service lives. This makes SECUMAX 148 ideal for tougher cutting tasks. The ergonomic handle and lightweight design will also aid safe and efficient working.

Robust blade head

The plastic-covered blade head is particularly robust with a blade thickness of 0.5 mm. This SECUMAX 148 can therefore take on especially difficult cutting materials in logistics and production.

Concealed blade

The blade head's two cutting edges are safely concealed to protect users and goods and are yet capable of safely cutting 2-ply cardboard boxes and much more.

Clever guide surfaces

Another reason why the SECUMAX 148 can cut through cardboard so easily? The guide surfaces located right at the front of the safety knife help you to cut at an angle. Angled cutting means less material resistance!

Ergonomically shaped

Right handed? Left handed? It's really all the same. The SECUMAX 148 fits perfectly in any hand. Gently arched outer edges, coupled with light ribbing and a low weight, ensure an ergonomic experience.

Sustainably built

MARTOR prioritises sustainability. SECUMAX 148 is the first MARTOR disposable knife to use only glass fibre reinforced recycled plastic. Its low weight also means materials have been used sparingly.

SAFETY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. Usage advice: Please use the product carefully for described work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the cutting tool into account in this regard.

2. Special application Instructions to avoid the danger of injuries: Only use cutting tools that are in perfect condition and have sharp, clean and undamaged blades. Employ the utmost care when handling the knives. CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade! To reduce the danger of injuries, hold the hand that is being used to restrain and stabilise the

cutting base in such a manner that the restraining hand or even other body parts are not endangered in the event that the knife slips. Do not modify this product in any way. Modifications of any kind may impair product safety. CAUTION: The risk of injury caused by manipulation of this product is extremely high. When both cutting edges are no longer sharp, dispose of the knife as general waste.

3. Non-use of the knife: Store the knife in a secure place.

4. Care instructions: Always keep the knife clean and do not expose it to unnecessary humidity to safeguard a long service life.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER S WITH CLIP NO. 9920

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER S is a robust holder that allows you to carry all compact MARTOR knives as well as our safety scissors at all times. In addition, the compartments are designed to allow you to load different tools: for example you can also carry a pen or a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.
