BELT HOLSTER S WITH CLIP
NO. 9920

18% of original size

It's the smallest of our three BELT HOLSTERS. But small is relative. The long SECUNORM 380 fits just as well as an atypically shaped SECUMAX EASYSAFE, a SECUNORM PROFI LIGHT or a SECUMAX 350.

And don't forget about the small slots on the right and left and the outer pocket, which can be used for a pen or a pack of blades.

BELT HOLSTER M WITH CLIP
NO. 9921

18% of original size

The wider BELT HOLSTER M comes in handy for a SECUPRO MARTEGO or SECUPRO MEGASAFE, for example. It could also be used to store up to three narrower blades one beside the other.

The BELT HOLSTER M also features two slots on the left and right sides, an outer pocket and an extra inner pocket.

BELT HOLSTER L WITH CLIP
NO. 9922

18% of original size

BELT HOLSTER L is even bigger when it comes to width and depth. Ideal for what are literally our biggest knives, such as the SECUPRO 625 or the SECUNORM POWERCUT.

You can also make your own combinations. The spacious interior, slots and pockets can be used for whatever suits your needs – for several cutting tools, pens, pack of blades or other work utensils.

Certified safety
We always design our cutting tools to the highest standards. So why should our accessories be anything less? Our MARTOR BELT HOLSTERS were therefore tested for harmful substances and stability – and were found to be very good.

Does it fit? Fits perfectly
Our MARTOR BELT HOLSTERS S, M and L are precisely tailored for our cutters – and not just that. Depending on the size of the pocket, it allows you to carry a combination of various tools: cutter/pen cutter/scissors, cutter/cutter, cutter/pen/scissors etc.

Intelligent spacesaver
With the MARTOR BELT HOLSTER you will always discover new storage options. A compartment here, a slot there – all designed so precisely to ensure the contents are kept as firmly as necessary while offering you maximum flexibility.

2 attachment options
The belt holster can be attached to your belt in two ways: by clip-on or velcro fastener. Velcro is recommended for belts; the clip can also be used on many other areas of your clothing, such as your trouser pocket.

Robust material
The BELT HOLSTER is now an integral part of everyday working life. So there is no inconvenience. This is further guaranteed by its durable nylon material, washable at 40°C, which is held together by double seams – even when subject to permanent use.

YOUR MARTOR CUTTING TOOLS?
THEY'VE EARNED THEIR RIDE.

Truly the best in one of our three new BELT HOLSTERS. Our practical carrying aids do it all in one: what to do with your cutting tool, when you're not using it?

Depending on the size, all the various MARTOR knives and scissors can fit into the durable and yet easily adjustable BELT HOLSTERS. The extra pockets can easily be used to fit an extra cutter, pen or pack of blades, for example.

This way you can carry along all of your work tools in the BELT HOLSTER - and have them right at hand as soon as you need them.
