

**Air Force® Industrial Master Blaster® Personal Blow Off System**

- » Powerful airflow delivers a high volume of air at relatively low pressure. 3.5 is well below OSHA standards.
- » Effectively removes fibers, dust and debris from clothes, surfaces or components.
- » The lower pressure means it can safely be aimed at any part of the body and even direct contact with skin poses no hazard. (Always use caution.)
- » The blower-driven system uses less energy and is quieter than compressed air.

**Air Force® Industrial Master Blaster® Personal Blow Off System**
