SECUNORM 300 THE PERFECT FORM FOR SAFE CUTTING.

THE SAFER WAY TO CUT.

Original size

Ergonomic handle The excellent ergonomics can be felt all over the SECUNORM 300, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft grip on the slider.

Pleasantly light Like its predecessor, the SECUNORM 300 also impresses with its lightness. For just 52 grams you get a comfortable and versatile professional cutting tool.

Abrasion resistant The SECUNORM 300 is made of a glass fibre reinforced plastic, making it particularly abrasion resistant. Your safety knife therefore stays in top form even when in heavy contact with the cutting material.

Controlled cutting depth The SECUNORM 300 makes light work of all common cutting tasks in logistics and production, etc., as well as high frequency cutting tasks. The shorter cutting depth is especially beneficial for packaged goods.

Optimal blade changing Just pressing the blade change button allows you to remove the plastic insert with the blade. The click-in blade cover and integrated magnet make blade changing even easier and safer.

Surprisingly light. Convincingly good. With rounded-tip trapezoid blade and 9 mm cutting depth.

The SECUNORM 300 is The SECUNORM 500's "little brother". Only the handles differ. The SECUNORM 300 handle comprises glass fibre reinforced plastic rather than aluminium, making it lighter. The double-sided slider is ergonomically shaped and has a soft grip for a more comfortable cutting experience. The SECNORM 300's 9 mm cutting depth provides versatility and extra protection for users and goods.

Automatic blade retraction – a high degree of safety The automatic blade retraction of the SECUNORM 300 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

PRODUCT FEATURES

Certificates and awards

YOU CAN FEEL THE QUALITY.
