# SECUNORM 300

NO. 30000310

Original size

#### Ergonomic handle

The excellent ergonomics can be felt all over the SECUNORM 300, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft grip on the slider.

#### Pleasantly light

Like its predecessor, the SECUNORM 300 also impresses with its lightness. For just 52 grams you get a comfortable and versatile professional cutting tool.

#### Abrasion resistant

The SECUNORM 300 is made of a glass fibre reinforced plastic, making it particularly abrasion resistant. Your safety knife therefore stays in top form even when in heavy contact with the cutting material.

#### Short cutting depth

A cutting depth of 5 mm means you can open a wide range of different packaging without the blade damaging the packaged goods. High frequency cutting tasks are also made easy.

#### Optimal blade changing

Just pressing the blade change button allows you to remove the plastic insert with the blade. The click-in blade cover and integrated magnet make blade changing even easier and safer.

**Surprisingly light. Convincingly good. With rounded-tip trapezoid blade and 5 mm cutting depth.**

The SECUNORM 300 is The SECUNORM 500's "little brother". Only the handles differ. The SECUNORM 300 handle comprises glass fibre reinforced plastic rather than aluminium, making it lighter. The double-sided slider is ergonomically shaped and has a soft grip for a more comfortable cutting experience. With a 5 mm cutting depth, the SECUNORM 300 provides optimum work safety and protection for packaged goods.

## PRODUCT FEATURES

### Technical features

	High safety		Safer blade change (with magnet)
	Abrasion resistant		Very ergonomic
	2-cutting edge blade		Cutting depth
	Rounded-tip trapezoid blade		Ceramic blade compatible
	Soft grip		For right and left handers

### Main cutting materials

	Cardboard: up to 2-ply		Wrapping, stretch and shrink foil
	Plastic strapping band		Tape
	Bagged goods		Layers of foil or paper

### Installed blade

	<b>NO. 65232</b> 0.63 mm, rounded blade tips, deep-edged
--	--

### Optional blade

	<b>NO. 165232</b> 0.63 mm, stainless, rounded blade tips, deep-edged
	<b>NO. 65232C</b> 0.65 mm, ceramic, rounded blade tips, deep-edged
	<b>NO. 5232</b> 0.63 mm, deep-edged <b>NO. 5233</b> 0.63 mm, 1-sided ground-edge
	<b>NO. 610</b> 0.63 mm, stainless
	<b>NO. 852</b> 0.63 mm, stainless, TIN
	<b>NO. 56</b> 0.63 mm

### Certificates and awards

### Application

### Safety technology

#### Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 300 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

YOU CAN FEEL THE QUALITY.

### SECUNORM 300

- › For high cutting frequencies
- › Light ergonomic handle for left and right handers
- › Made of abrasion resistant plastic
- › Automatic blade retraction
- › GS-certified for approved safety
