# SECUNORM 525

NO. 525001

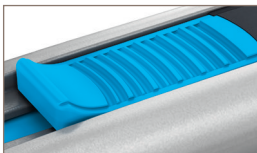

Original size

#### Robust handle

The aluminium handle is already familiar from the SECUNORM PROFi25. The handle and a newly developed plastic insert form a perfect team to ensure that your SECUNORM 525 is equipped to meet even the toughest tasks.

#### Optimised slider

A firm hold and grip are typical MARTOR characteristics. The SECUNORM 525 is no different. Its slider has a grooved structure and is especially large giving the ideal conditions for comfortable, "hands-on" work – even when wearing gloves.

#### Safe blade change

The blade change button gives easy access to the blade, which you can now turn or replace. A further practical feature is that the blade cover can be lifted and locked in an open position.

#### Large cutting depth

The cutting depth is ideal for cardboard, film, strapping bands and much more. But the SECUNORM 525 is not only very versatile, it can also be relied on for high frequency cutting tasks.

#### Secure hold

For secure fastening, the SECUNORM 525 is equipped with a practical lanyard hole, another reason why it could become a constant companion. You then reduce risks two-fold: the risk of loss and the risk of cutting injuries.

**A versatile helper – with great qualities.**

**With ceramic blade.**

The SECUNORM 525 is a straightforward safety knife in every way. The robust and ergonomic aluminium handle sits firmly and comfortably in the hand. The combination of the durable sharpness of a ceramic blade and a cutting depth of up to 18 mm means the SECUNORM 525 easily manages a variety of cutting materials. An unobstructed view of the blade also particularly enables a precision cut. In every task, the proven automatic blade retraction protects you from cutting injuries.

**PRODUCT FEATURES**

	<b>NO. 60099</b> 0.63 mm, rounded blade tips, deep-edged
	<b>NO. 99</b> 0.63 mm, deep-edged
	<b>NO. 199</b> 0.63 mm, deep-edged, stainless
	<b>NO. 98</b> 0.63 mm

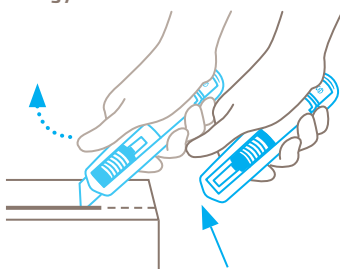

**Certificates and awards**

**Application**

**Safety technology**

**Automatic blade retraction – a high degree of safety**

The automatic blade retraction of the SECUNORM 525 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

# THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.
