by MARTOR

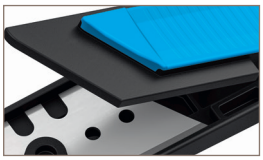
Original size

Ergonomic handle
The excellent ergonomics can be felt all over the SECUNORM 300, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft grip on the slider.

Pleasantly light
The SECUNORM 300's lightness enables you to work efficiently. At only approx. 50 grams, you get a comfortable and versatile professional cutting tool.

Sustainably robust
The SECUNORM 300 is made of a glass fibre reinforced, recycled plastic, making it particularly abrasion resistant. Your safety knife therefore stays in top form even when in heavy contact with the cutting material.

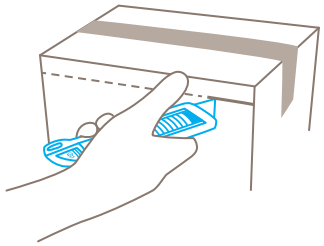
Increased cutting depth
A 19 mm cutting depth makes light work of all common cutting tasks in logistics and production, etc., as well as for high frequency cutting tasks. You can be sure your high-quality MARTOR knife will keep up to speed with any task.

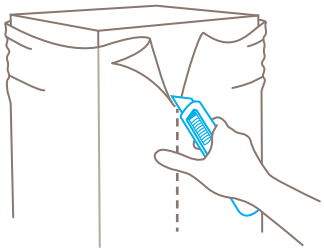


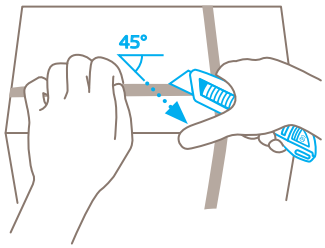
Optimal blade changing
Just pressing the blade change button allows you to remove the plastic insert with the blade. The click-in blade cover and integrated magnet make blade changing even easier and safer.

Surprisingly light. Convincingly good.
With trapezoid blade.
The SECUNORM 300 is the lightweight alternative to the SECUNORM 500. Its handle housing comprises at least 60% recycled plastic and is reinforced with fibreglass. This means that the all-round knife is ready for any number of cuts through cardboard, film, etc. And you are too! Because SECUNORM 300's ergonomic design feels comfortable even after a long day of cutting. The automatic blade retraction protects you, and the blade is quick to change.

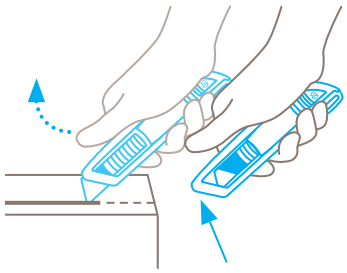
Application







Safety technology



Automatic blade retraction – a high degree of safety
The automatic blade retraction of the SECUNORM 300 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

PRODUCT FEATURES

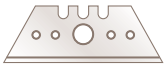
Technical features

- High safety
- Safer blade change (with magnet)
- Abrasion resistant
- Very ergonomic
- 2-cutting edge blade
- Cutting depth
- Ceramic blade compatible
- Soft grip
- For right and left handers
- Lanyard hole

Main cutting materials

- Cardboard: up to 3-ply
- Wrapping, stretch and shrink foil
- Plastic strapping band
- Tape
- Bagged goods
- Layers of foil or paper

Installed blade



NO. 5232 0.63 mm, deep-edged

Optional blade

NO. 65232 0.63 mm, rounded blade tips, deep-edged
NO. 165232 0.63 mm, stainless, rounded blade tips, deep-edged
NO. 65232C 0.65 mm, ceramic, rounded blade tips, deep-edged

NO. 5233 0.63 mm, 1-sided ground-edge
NO. 610 0.63 mm, stainless
NO. 852 0.63 mm, stainless, TiN-coated

NO. 56 0.63 mm

Certificates and awards

YOU CAN FEEL THE QUALITY.

SECUNORM 300

› For high cutting frequencies
› Light ergonomic handle for left and right handers
› Made of recycled plastic
› Automatic blade retraction
› GS-certified for approved safety

PRODUCT DETAILS

Order No.	NO. 30000410.02
Packaging unit	1 in single unit box (10 pieces in multipack)
Knife size (L x W x H)	143 x 16 x 36 mm
Main material	Recycled plastic, glass fibre reinforced plastic
Weight	48.50 g
Cutting depth	19 mm
Spare blade **Packaging unit** **Size (L x W x Thickness)**	NO. 5232.70 (10 in dispenser) 53 x 19 x 0.63 mm
Certified	GS certificate NO. 188250-7992-55094-2024

Accessories

BELT HOLSTER S		NO. 9920
BELT HOLSTER XXL		NO. 9924
HOLSTER SMALL		NO. 9842
TOOL RETRACTOR		NO. 9960
